

The only SME PED that
can switch between an
integrated classified
and unclassified
PDA by pushing
a single key.

Unified Secure Voice and Data in the Palm of your Hand

General Dynamics' Sectera® Edge™ is the world's first Type 1 **ruggedized** smartphone. This compact and lightweight device allows users to protect classified and unclassified voice and data communications from one easy-to-use handheld device.

Extending Type 1 Security to the Edge of the World

The RUGGED Sectera Edge smartphone provides secure and wireless:

- Voice communications
- Access to the SIPRNET and NIPRNET
- Email, web browsing, and instant messaging
- Global roaming over GSM, CDMA, or Wi-Fi Wireless networks
- Interoperability and connectivity with SCIP and HAIPE® devices
- Data-at-Rest Encryption

For more information, call 781-455-2800 or 888-Type1-4-U (888-897-3148), email secure.communications@gdc4s.com or visit www.gdc4s.com/secureproducts

General Dynamics Secure Communications: We Bring You What's Next.
